## Summary

I am an experienced production sound mixer and boom operator with a focus on commercials, documentary, television and feature length drama. I pride myself on providing professional, efficient and creative solutions to the art of recording and mixing sound for picture. These positions have provided me with the opportunity to develop excellent communication skills along with a thorough understanding of standard protocols and professional etiquette, manual handling and health & safety on set, in the studio or on location. I have studied sound engineering & music technology, as well as TV, radio production and art & design. I am also a member of the sound guild of Ireland SAI, IFTA, IMRO & SIPTU. I own an extensive range of high end production sound equipment and can offer scaleable services tailored to each projects individual needs. I am based in Dublin city centre, however I travel frequently for work. Please feel free to contact me today with any queries.
